

General English Course

Course Aims & Objectives

In this course, we teach Internationally understandable English, but we also share the different ways and accents that English is used in other countries, in particular American and UK.

Our English courses cover all aspects of the language; speaking, listening, reading and writing. Our teachers pay special attention to each student's specific needs, daily conversation, etc. We emphasize on correct pronunciation, practical usage, and we also encourage students to speak up and ask questions.
